ELEVATE INDUSTRY SERVICE

Heavy-Duty Professional

The heavy-duty industry doesn't need another repair shop.

It needs better companies.

Companies that value thinking as much as turning wrenches. Companies that communicate clearly. Companies that use technology to improve service instead of adding complexity.

Companies that understand every decision has a ripple effect.

That's why Mach 6 exists.

Our vision is to elevate industry service and accelerate fleet performance. Our mission is to maximize customer uptime through smarter service by combining technology, proactive communication, and disciplined process control.

If that sounds like the kind of company you want to help build, we'd like to meet you.

YOUR ROLE

As a Heavy-Duty Professional, you'll do more than repair equipment. You'll create the information that drives every decision that follows. Your inspections, diagnostics, documentation, and communication enable our service advisors, parts team, and customers to make confident decisions that reduce downtime and improve fleet performance.

At Mach 6, a repair isn't finished when the equipment runs. It's finished when everyone understands what happened and what comes next.

WHAT YOU'LL WORK ON

- Diagnostics and troubleshooting
- Engine, aftertreatment and drivetrain repair
- Electrical and hydraulic systems
- Preventive maintenance
- CVIP inspections
- Suspension, steering and brake systems
- Mobile field service
- Material handling, construction and highway equipment

WHAT WE BELIEVE

- Every decision either multiplies value or multiplies waste.
- Technology should amplify good people—not replace them.
- Documentation is part of the repair.
- Clear communication builds trust.
- Disciplined systems create predictable results.
- Quality and profitability improve together when work is done properly.

WHAT SUCCESS LOOKS LIKE

- Think critically before acting.
- Diagnose accurately.
- Document clearly.
- Communicate professionally.
- Follow proven systems.

- Help teammates succeed.
- Take ownership of customer outcomes.
- Continuously improve your skills.

QUALIFICATIONS

- Journeyman Heavy Equipment Technician or registered Apprentice
- Strong diagnostic ability
- Pride in workmanship
- Commitment to safety
- Professional communication skills
- Mechanical curiosity and willingness to learn

WHY MACH 6

We are building a company that raises the standard for heavy-duty service.

You'll work with modern diagnostic technology, digital inspections, structured processes, continuous training, leadership development, and a team committed to improving every day.

We're not interested in doing things because they've always been done that way. We're interested in finding better ways.

BENEFITS

- Extended health care
- Vision care
- Dental care
- RRSP match
- Tool & boot allowance
- Life insurance
- Disability insurance
- Vacation
- Company Functions

If you're looking for another mechanic job, we may not be the right fit.

If you want to become part of a team that values craftsmanship, clear thinking, ownership, technology, and continuous improvement, we'd love to hear from you.
